DON'T WAIT

Take Advantage of a South Paris Citizen's Experience.

When the back begins to ache,
Don't wait until backache becomes
chronic;

'Till kidney troubles develop;
'Till urinary troubles destroy night's
rest.

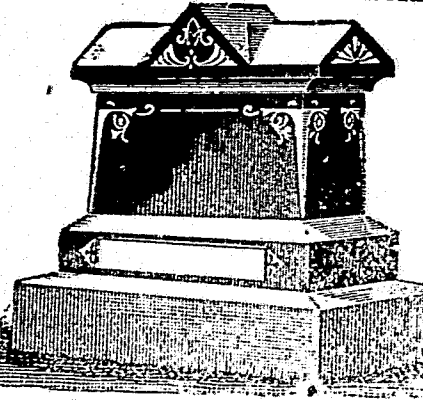

Profit by a South Paris citizen's experience.

Mrs. L. E. Monk, Pleasant St., South Paris, Me., says: "I suffered dreadfully from inflammation of the bladder and couldn't get much relief. It was evident that my kidneys were very disordered, as my back pained me and my feet and ankles became swollen. Doan's Kidney Pills gave me fine results. Almost immediately, I had relief from the inflammation and as my kidneys were strengthened, the other ailments left. Now, I use Doan's Kidney Pills only as needed and am always able to depend on them for relief."

HARRISON

Flora Adams celebrated her twelfth birthday on Friday, Feb. 23. Miss Adams was the recipient of a beautiful birthday cake with twelve candles on it, which was made and presented to her by her aunt, Mrs. Lillian Emerson.

Mr. and Mrs. Marshall Pitts of Hillside Ave., spent the week end in Norway, with her aunt, Elizabeth Foss, and uncle, Edwin Libby.

Mr. and Mrs. C. Herbert Hill, who have been spending the past three months with relatives in Austin, Texas, arrived at their home here on Saturday last. They made the trip to Texas, a distance of 3,387 miles in their Cadillac roadster, the latter part of November, in just sixteen days, having no trouble whatever with their motor, and only three tire punctures, during the whole trip, which is considered remarkable. The Hills left their car in Texas, where the grass is green, flowers in bloom and birds singing, to be shipped to Maine a little later, and made the return trip wholly by rail-road, spending a couple of weeks in Portland by the way. Their many friends in town are glad to welcome them home again.

Charles W. Jackson, a former druggist here, is the guest of friends in town. Mr. Jackson is now located in Jackson, Maine, and is doing finely in the drug business there.

G. Harrington Flint of Norway was a week end guest at his home on High street.

C. D. Tarbox made a business trip to Portland on Friday and Saturday. Mr. Tarbox is one of the officers of the Harrison Driving Club, and at present has his hands bristling with business, in connection with the horse racing which occurs here on Wednesday and Thursday of this week, with moving pictures and a grand ball on Wednesday evening in the Grange Hall.

Laura Tolman, daughter of Judge Tolman of Westbrook, was a recent guest of her relatives, Mr. and Mrs. Walter Dudley at Overlook Cottage, Bridgton road.

The Murray band will meet on Saturday afternoon, March 3d, at three o'clock with Mrs. Anna M. Dudley.

Edna Marquette is assisting Dr. J. P. Blake in the Harrison Mutual Fire Insurance office on Front street.

Mrs. Hattie Caswell of Portland was a visitor of friends in town the past week.

Mrs. Effie Caswell Blaisdell of Auburn spent several days with relatives here last week.

Eugene Tenney, grocer, has had his soda fountain changed and is ready for business.

Rev. J. B. Coy of the Baptist church was a supper guest recently of Mr. and Mrs. Q. M. Chute at Maple Ridge.

Fred Wood has enlisted in the United States Navy for four years, and will leave home the last of the week to enter upon his duties.

How to Invest Money

Most investors are investors for income, and want safe securities yielding a good interest rate.

You will find both these requirements met in the first mortgage bonds safeguarded under the Straus Plan.

They are secured by newly improved, income-producing, well-located city real estate.

Each bond is a direct first mortgage on the property securing it.

Our literature describes in detail how to invest your money in the bonds underwritten in accordance with the Straus Plan and sold by us. They yield 5 1/2 %.

WHY A PIANO?

We are HAPPIEST when our lives are FULLY ROUNDED OUT by the proper experiences, and if we don't include ART in those experiences, we have missed the combination. MUSIC is just as much needed in our home—in ANY home—as different foods are at a meal. We can't get along on bread alone, or meat alone, or anything else by itself. And we can't say that we have lived up to our full measure without music. The PIANO is an essential in your home—because its results is an important part of Happiness. And to be Happy is to have secured the best that life holds.

Ladies' Boots for \$3.00

We have a large lot of Ladies' Button Boots, Gun Metal and Patent Kid, both high and low heels, all sizes from 1 to 8, D and E width, which we are selling for \$3.00 per pair. These boots were bought on a low market and for that reason we are able to sell them for this price. These same boots on today's market would cost \$4.00 or \$4.50 and when these are sold we will have to get that price for the same quality, and manufacturers tell us that prices are going still higher. We have about 500 pairs of these boots, but they are selling rapidly. It is a good time to buy them now.

Corns Peel Right Off With "Gets-It"

2 Drops, and the Corn is a "Goner!"

When you've got to walk on the sides of your shoe to get away from those awful corn-pains, there's only one common-sense thing to do.

Use "Gets-It" Your Corns Won't Swell in Water. Besides, They'll Shrink, Loosen and Peel Off!

Put 2 or 3 drops of "Gets-It" on the corn right away. Pain and inflammation will disappear. The corn will begin to shrink from that instant—then it loosens and falls right off. There's no other corn-remover in the world that acts like "Gets-It." No new discovery has been made in corn-removers since "Gets-It" was born. Don't forget that fact. "Gets-It" does away with the use of salves that irritate, bandages that make a bundle of your toe, plasters that hurt, do the same thing, and scissors that draw blood. Use "Gets-It"—no more digging or cutting. "Gets-It" is sold everywhere. See a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Norway and recommended as the world's best corn remedy by F. P. Stone and Frank Kimball.

NORWAY AND VICINITY.

NORWAY BOY CONSTRUCTS MANY TOYS

Roland E. Andrews, son of Mr. and Mrs. Eugene E. Andrews, Main street, Norway, is a natural mechanic. He is fourteen years old and when not working away on his ninth grade school studies, can be found in the house attic putting away on odds and ends. Here is the place where his ingenuity has run riot, and a collection of homemade battle-hips, locomotives, motor and sail boats, jointed animals and flying machines would make the heart of any real boy leap for joy.

Thin scraps, odd pieces of wire, strong wooden slabs, nails and screws picked up at random together with short lengths of cotton sheeting is the material that he has cunningly wrought into working models as true to type as possible with only magazine cuts or post cards for a guide. A few common tools and a jig-saw compass this toy factory equipment.

Yes, many curious toys can be found in this attic work shop. A wooden mogul compound locomotive standing nearly a foot high, with tender, measures 28 inches in length with movable parts working properly. This interesting combination is fashioned from coffee cans, cord wood, dry goods boxes and telephone wires. The horizontal steam engine is another clever reproduction about 18 inches long, with a steam chest and cylinder built from scrap tin, the base and fly wheel being created from a cast off plank. Hay wire made the crank shaft, piston rod and other small metal parts that work together like the real thing when power from a motor is applied.

The U. S. Battleship California is reproduced to a nicely with proper armament, "crow's nests," search lights, together with other fixings having names unknown to us "land lubbers." The hull of Uncle Sam's fighting machine measures close to three feet in length, while the rest of the ship lines up approximately to that scale. Along side the black war vessel is a trim yacht, patterned after a famous cup defender, with its neat sails, spars and rigging in contrast to its dark complexioned companion.

An uncommon toy which will appeal strongly to a war interested boy is the aeroplane. This one that hangs by a string up there in the work shop attic is alive. Not literally so, but can actually fly in a circle when a small motor is belted to the propeller and the electric juice switched on. This flier is made from seasoned pine worked out from a stray board, a ball of twine and odd sheeting for wing covers. The whole frame measures better than four feet long, the planes extending more than a yard at right angles. Every movable part is controlled by a proper lever, so that if nature at the beginning had figured out the future with modern air navigation in view, this flier could easily sustain a twelve month old child and allow him a keen ride at that.

Roland has now a real work shop which his father secured from the Swift estate. The building has been moved from Paris street to a site on Marston street near the Andrews residence. The young mechanic is fitting it up as his tastes dictate and will shortly have there a collection of ingenious toys well worth seeing.

PARENT-TEACHERS ASSOCIATION MEETING

The Norway Parent-Teachers Association held their February meeting on the evening of Washington's birthday in the High School building, with a good attendance. This being an informal gathering, the program committee, Rev. R. J. Bruce, Mary E. Dwyer and Mrs. Dennis Joslyn offered an attractive miscellaneous entertainment that was well received.

Mrs. Herman L. Bartlett, president of the Association, called the meeting to order at 8 o'clock. The secretary, Edith M. Knight, read the minutes of the previous meeting. Mrs. William F. Jones, who was a delegate to the Educational meeting, held at Augusta recently, gave an interesting report in the form of two communications, one concerning the parent-teachers work at Waterville, the other an account of progressive methods advanced in the Rumford public schools by the superintendent. She mentioned dental work and medical examination as measures being adopted in nearly every large

town and city in the state. The speaker suggested that Norway join this advanced campaign, requiring at least a medical certificate for each child from the family physician, before the pupil could start the school year. The chair appointed Mrs. W. F. Jones as delegate from the Norway association to the National Congress of Mothers, which will be held at Washington, D. C., April 24, to May 1. W. S. Chandler was chosen advertising agent, whose duty would be to make press announcements of meetings, report all gatherings and make public matters which would advance the Association's good work. Supt. T. C. Morrill suggested that refreshments be served only at each third meeting, which would probably be a special occasion with some well known speaker in attendance.

Owing to suggestion from State headquarters the annual election of officers will not take place until May, therefore the 1916 board are to serve until a change is made. At the March meeting for parents and teachers, a prominent speaker will be secured and a profitable evening is anticipated.

A musical and literary program followed the business session. Recitations were given by Marion Downing and Alice Bartlett, a piano duet by Elsie Smith and Elizabeth Klain and a violin solo by Dorothy Thomas with Louise Thomas as accompanist.

The hit of the evening was the Mandolin Club. It was their first appearance in public and they were enthusiastically received. This organization has been holding rehearsals during the winter under the direction of Supt. Morrill, merely for sociability and mutual improvement. Recently E. H. Mosher, formerly of Providence, R. I., a well known mandolin player in the city, joined their forces and under his directorship the club offered a creditable program which included the following popular numbers: "Director's Choice March," "Corporal's Guard March," "Overture 'Italian Serenade,'" "Gainsborough March," "Sea Fairies" and "Daughter of Love Waltz." The full membership is large, but all were unable to attend owing to other engagements. Musicians present were T. C. Morrill, E. H. Mosher, Marion Lougee, Elizabeth McCreery, Mr. and Mrs. Don Whitney, Arthur Bartlett, John Samborn, Howard Maxin, Fredland Howe, Otis Jones. The ice is broken and the club realize they can produce agreeable music, the public may have the pleasure of listening to this club many times before the end of the school year.

The speaker was Herman L. Horne, a member of the Norway school board. He said that his initiation to school matters was an amusing, yet instructive work on the road of learning in the Upper Primary on Main street about that time. Especially during the past fifteen years had he come into close touch with the town school affairs and watched the advancement from a haphazard way of teaching to the modern specialized effort in an amusing, yet instructive work on the road of learning in the Upper Primary on Main street about that time.

Two popular suggestions that have been offered to relieve the situation were commented on, namely, eliminating the tuition pupils from the high school, or erecting a new building. On the first suggestion Mr. Horne believed it to be a very wise policy to let \$700, or the year's salary of a teacher, leave town. The tuition pupils spent more or less money here and parents coming in each week after them did considerable trading at the time. Also because of their presence the school standard had been raised, for many who enter from surrounding towns are more thoroughly prepared than a majority who have passed through the Norway grades. Regarding a new building, he considered that a necessity, and before long the town must take action if expansion continues. The unfinished high school department should be turned over to the grammar school and the lower grades given more room. In closing the speaker gave a strong plea for the boys and girls. They are to follow us and become the future citizens, with the innumerable cares and responsibilities. Therefore it is the duty of every parent to give them the best, allowing the broadest factors to do their work which is only possible under the congenial surroundings.

A social hour followed. The refreshment committee, Mrs. Percy Nevers, Elton Brown and Stephen Cummings furnished a treat, consisting of salted peanuts, marshmallows, confectionery and oranges.

COMPARISON

In Shoe Buying

It's Right Now

Good shoes are extremely scarce and prices are constantly advancing. This is no time to buy with your eyes shut, nor to accept every "mark down" announcement at its face value without investigation. Shoe material is being manipulated, manufacturing slighted and fictitious values quoted. It's a good time to look sharp, to compare, to be careful what you buy.

We always invite comparison on our Douglass and Regal shoes. Take for example, the following instance, which can easily be verified, even by a man who has never qualified as a shoe expert.

A Pair of Regal Shoes

purchased at this store in the early Spring of 1916, have been worn steady for about five months, have had two new pair of heel lifts, the soles are beginning to get thin on the bottom and will soon have to be half-soled. The linings are in good condition and the inside back-stays are perfect. The Regals are still holding their perfect shape and fit. The price of the Regals at that time was \$4.00.

A Pair of Ordinary Shoes

purchased the first of November, 1916. Worn about four weeks, the tops of both shoes are out of shape, the heels are loose, the welt of one is coming off, the lining of one shoe is in bad shape and the inside back-stays of both shoes are broken. The matter of adjustment was taken up with the retailer, who immediately tried to adjust with the wholesaler, the wholesaler tried to repair (which is impossible), and retained the shoes. The matter is now up to the manufacturer with no possible chance for adjustment; therefore, the purchaser must stand the loss. The price of the ordinary shoes was \$4.00.

In our store adjustment is made in reasonable time, many cases of adjustment are made in less than five minutes and none of them had ought to take over ten or fifteen days, and above all our adjustments are satisfactory whether on a pair of shoes, a suit, overcoat, shirt, or even a small article like a pair of shoe-strings.

NORWAY MAN'S SPLENDID STORY GIVEN ENDORSEMENT

A story that will interest many hundreds of Norway women was told not long ago in Norway.

"I suffered from a general run-down condition," explained Mr. S. G. McAllister of Norway, as he began his remarkable story. "I had a very weak stomach." Mr. McAllister continued. "My whole system seemed to have become run down. My color was poor and I had a general feeling of lassitude. I could not get around well. I had no real appetite, and almost no energy. I had heard a great deal about Tanlac and finally decided I had better try it."

"I am better now in every way. I am stronger. I have a good appetite, and Tanlac is doing me lots of good." As Mr. McAllister was telling his interesting story, there stood nearby Judge C. F. Whitman, one of Maine's best known men in public life. For over thirty years Judge Whitman has honored the various offices bestowed upon him by the people.

Interested, Judge Whitman stepped forward and said, "I know Mr. McAllister and he looks five hundred per cent better."

"Remarkable as is this story, it is no more so than thousands that have been told of Tanlac," said the Tanlac Man. "I remember the surprise that was caused the Eighth Kentucky Judicial District gave an unsolicited endorsement of Tanlac. And when the Mayor of Nashville

publicly told the benefits he had received through the Master Medicine. Only a short time ago I had the pleasure of hearing Mr. Morris Garlick, Secretary of the Brooklyn Taxpayers Association, which looks after ten million dollars worth of realty in New York City, say that Tanlac had made it possible for him to do famous Major Guthrie, candidate for Governor of North Carolina, was another of the Tanlac endorsees high in public life. From memory alone I could quote the names of more than a hundred such men and women; but it is the words of that are most convincing. "When they true. You may doubt the printed statement of some celebrated person who is far away, but there is no such doubt when the words of home folks are given. That is why Tanlac stories here are, told only by Maine men and women."

Tanlac now is being specially introduced in Norway at F. P. Stone's drug store. There is a Tanlac agent in every Maine town. Nearby Tanlac agents are Eugene Tenney; Bridgton, F. E. Stevens; Waterville, L. R. Rounds; East Waterford, R. E. Pinkham; West Paris, S. T. White.

Very truly yours,
DONALD DUNBAR, Secretary.

NEW ENGLAND ANIMAL FERTILIZERS

The best of all fertilizers is animal matter, as it is the most natural and lasting. New England Animal Fertilizers are made of **BONE, BLOOD, MEAT** and high grade chemicals—natural plant foods, and are the nearest to the ideal plant food—farmyard manure.

Feeding the soil in a natural way, returning its fertility and keeping it rich, they produce the right kind of crops in abundance.

1916 crops raised with New England Fertilizers were remarkable in yield and quality.

Our dealer will help solve your fertilizer problems, or write for free booklet.

Feed the plant and it will feed you

This is the farmer's year. Farm products are in such demand, every foot of tillage land should be utilized. Anticipate your needs for fertilizer and buy early, prices are liable to be higher. We have the old Reliable Bowker Brands. None better. We shall have our stock in February 1. Why not get it home in sledding time and not stop to run after it in planting time when you are so busy.

Our machinery line is complete.
